EDUCATION

B.E. – Electronics Engineering (VLSI Design & Technology) 2023 – 2027

Bangalore Institute of Technology, Bangalore, Karnataka

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML/CSS

Backend / Frameworks: Spring Boot, Node.js, Express, FastAPI, REST APIs, Microservices, Apache Kafka

Frontend: React.js, Vite, Tailwind CSS, Zustand

Databases: PostgreSQL, SQLAlchemy/JPA, H2, ChromaDB

DevOps / Tools: Docker, Kubernetes, Git, GitHub, Maven, Vercel, Render

AI / ML: Gemini API, OpenAI Agents SDK, CrewAI, DeepChem

PROJECTS

Spendx — Full-Stack Financial Dashboard Apr 2025

React • Node.js • Express • PostgreSQL • Gemini API

- Built production-grade finance dashboard with React/Vite frontend and Node.js/Express REST backend on PostgreSQL; deployed on Vercel + Render.
- Implemented role-based UI (Admin/Viewer), CRUD transaction management, and real-time spend visualisations with Recharts.
- Integrated Gemini-powered AI assistant for natural-language financial analysis; added 11-language support and dark/light mode.

MolGenix — AI Drug Discovery Backend • Hack SurgeX Runner-Up (NMIT) May 2025

Python • FastAPI • PostgreSQL • SQLAlchemy • Docker • Gemini API

- Built end-to-end AI drug discovery platform at 36-hour hackathon; FastAPI + PostgreSQL backend with SQLAlchemy ORM, containerised via Docker Compose.
- Implemented ADMET prediction, molecular docking, and vector search (ChromaDB); deployable on AWS ECS and Hugging Face Spaces.

Research Crew AI — Multi-Agent Research Workflow Sep 2024

Python • CrewAI • YAML

- Built a collaborative multi-agent system (Researcher + Reporting Analyst agents) with YAML-configurable pipelines supporting run, train, replay, and test modes.

CERTIFICATIONS

JPMorgan Chase SWE Job Simulation — Forage Feb 2026

Spring Boot microservices, Apache Kafka, JPA/H2, REST APIs, Maven test suites

AI Engineer Agentic Track: Agents & MCP — Udemy (17 hrs) Jan 2026

Multi-agent systems, Model Context Protocol, agentic AI design

Docker & Kubernetes Masterclass — Scaler Sep 2024

Containerisation, orchestration, scaling, production deployments

COURSEWORK & COMPETENCIES

Data Structures & Algorithms • OOP • DBMS • Software Engineering • Full-Stack Web Dev • Microservices & Event-Driven Architecture • API Integration • AI Agents & MCP • Linux • Debugging

EXTRACURRICULAR

- NCC ‘B’-Certificate Cadet (Oct 2023–Mar 2026) — leadership and team coordination through training and community service camps.
- Core Team Member, Under 25 Summit — sales lead and marketing coordinator for a 550+ attendee festival.
